- Was an LBD caregiver support group facilitator for several years; monitors several online LBD caregiver support groups; was a moderator of the LBD Caring Spouses group, and is a charter member of the After LBD Group.

When her sister who already had Parkinson's developed terminal cancer, Helen Buell Whitworth retired from her nursing and counseling career to be her caregiver. This was Helen's first personal experience with a Lewy body disease, although it wasn't until she met James that she knew this.
